How to Appreciate the Profile Map

First look into your

- **Academic Score** – reflects how good you are in your studies
- **Knowledge Score** – reflects how much you know
- **Intelligence Score** – reflects how good you are in solving problems

If these three scores are high your "general quotient" will be satisfactory

Then try to identify your propensities

- Propensity to Accept Tasks – tendency to believe on your own abilities which allows you to accept any task given to you
- Propensity to Think – tendency of applying your mind to any given task and seek solutions to such tasks
- Propensity to Communicate – tendency to receive other people's thought and also sending your thoughts to other people, in different situations and through diverse media
- Propensity to Use Tools – tendency to make use of tools towards fulfilling your functional requirements and be a task enabler

If these four propensities are high your "empowerment quotient" will be satisfactory.

If these three scores are high your "general quotient" will be satisfactory

Then try to identify your propensities

- Propensity to Accept Tasks – tendency to believe on your own abilities which allows you to accept any task given to you
- Propensity to Think – tendency of applying your mind to any given task and seek solutions to such tasks
- Propensity to Communicate – tendency to receive other people's thought and also sending your thoughts to other people, in different situations and through diverse media
- Propensity to Use Tools – tendency to make use of tools towards fulfilling your functional requirements and be a task enabler

If these four propensities are high your "empowerment quotient" will be satisfactory.

How to Appreciate the Profile Map

First look into your

- **Academic Score** – reflects how good you are in your studies
- **Knowledge Score** – reflects how much you know
- **Intelligence Score** – reflects how good you are in solving problems

If these three scores are high your "general quotient" will be satisfactory

Then try to identify your propensities

- Propensity to Accept Tasks – tendency to believe on your own abilities which allows you to accept any task given to you
- Propensity to Think – tendency of applying your mind to any given task and seek solutions to such tasks
- Propensity to Communicate – tendency to receive other people's thought and also sending your thoughts to other people, in different situations and through diverse media
- Propensity to Use Tools – tendency to make use of tools towards fulfilling your functional requirements and be a task enabler

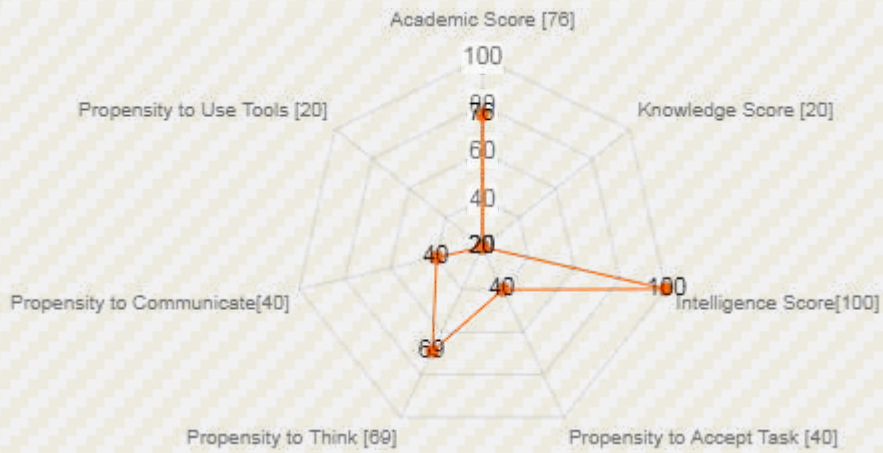

If these four propensities are high your "empowerment quotient" will be satisfactory.

How to Appreciate the Profile Map

First look into your

- **Academic Score** – reflects how good you are in your studies
- **Knowledge Score** – reflects how much you know
- **Intelligence Score** – reflects how good you are in solving problems

If these three scores are high your "general quotient" will be satisfactory

Then try to identify your propensities

- Propensity to Accept Tasks – tendency to believe on your own abilities which allows you to accept any task given to you
- Propensity to Think – tendency of applying your mind to any given task and seek solutions to such tasks
- Propensity to Communicate – tendency to receive other people's thought and also sending your thoughts to other people, in different situations and through diverse media
- Propensity to Use Tools – tendency to make use of tools towards fulfilling your functional requirements and be a task enabler

If these four propensities are high your "empowerment quotient" will be satisfactory.

How to Appreciate the Profile Map

First look into your

- **Academic Score** – reflects how good you are in your studies
- **Knowledge Score** – reflects how much you know
- **Intelligence Score** – reflects how good you are in solving problems

If these three scores are high your "general quotient" will be satisfactory

Then try to identify your propensities

- Propensity to Accept Tasks – tendency to believe on your own abilities which allows you to accept any task given to you
- Propensity to Think – tendency of applying your mind to any given task and seek solutions to such tasks
- Propensity to Communicate – tendency to receive other people's thought and also sending your thoughts to other people, in different situations and through diverse media
- Propensity to Use Tools – tendency to make use of tools towards fulfilling your functional requirements and be a task enabler

If these four propensities are high your "empowerment quotient" will be satisfactory.
